

Nass Marei

*Our great friend Dr. Nasr Marei passed away.
I have shared with him many moments around the world.
We have spent 20 years together sharing unforgettable time.
I have so many memories of him, I learnt so much from you Dr. Nasr.
Words can not convey what I am feeling in my heart.
We all at Tutto Arabi are very sad and we continue to think that he is still with us.
We have in our archive many galleries and words written by him that we will republish time to time to revive our friend. In this number we would like to publish the Vivid Colour of Nature.
Judith Witch made an interview with him few months before he passed away, we would like to*

*publish it now as it now reads like his legacy.
Nasr was a breeder, a horse lover, an amazing photographer, a great writer and a possible art director of a magazine.
His talent and his skills were a big help for our magazines Tutto Arabi and Desert Heritage.
He was a wise man and he was close to me when my parents passed away.
He was close to me when my son was born.
He was a great and faithful friend in bad and good moments, when I was nobody and when I grew up and became well known in this world.
I will miss you forever my dear.
Take care
Simone Leo*

VIVID COLOR OF NATURE

by Nasr Marei

Photography is a wonderful tool to bring back home Nature's beauty and memories. You keep them forever there and look on them once in a while to relive these special moments.

Swans and

Ducks

VIVID COLOR OF NATURE

by Nasr Marei

Nature is extremely rich and there is so much that yet one remain to explore. The combination of colors, texture, light and formations offers an unlimited resources to a person who wants to capture this on canvas, through his/her lens or simply to registrar that beauty in his mind and enriches his thoughts with beauty.

Wild colours

VIVID COLOR OF NATURE

by Nasr Marei

If you have a camera in your hand take some of that beauty back home where you can enjoy it every day.

Flowers

Salvage

VIVID COLOR OF NATURE

by Nasr Marei

Here I am very good friend of Desert Heritage and TuttoArabi. When Simone Leo asked me to start with some photo galleries I thought the theme should be the Colors Of Nature.

Whether it is flowers, foliage, animals, birds, marine life or simple sky. It is a celebration to the gift of nature.

Next time you drive, walk or travel take some time to look on the details around you. Our busy and hectic life has blinded us from enjoying the beauty around us. Take your time, examine, scan remember and study what you see. Your experience will be enriched and you will enjoy your day and life much more.

VIVID COLOR OF NATURE

by Nasr Marei

As a keen photographer, I always have my eyes open and in continuous search for interesting things to capture. Almost every time when exploring a new frontier I see things as if I am looking at it from my viewfinder. Actually, I visualise framing and lighting while looking around.
