The photographic journey of a husband & wife

Photography is one of the common interests that brought us together across the continents. Ziggy being from Belgium and Maxine from South Africa, we met during our time in Qatar. Since we were young, we have both been interested in photography as a hobby and have enjoyed taking on new challenges. The art of appreciating the splendor around us. None is as important as light - it is what brings into our eyes the beauty of what is and allows us to capture every moment.

It is this very light that we enjoy photographing in every way and it is what allows us to enjoy the beauty of the fauna & flora on both land and sea, from the largest stars, moon & sun, to the smallest macro details around us, and the emotions of the people that enjoy them.

"I love the challenge of capturing that single moment in time and creating a reflection, in such a way that it becomes an everlasting cherished memory."

Ziggy Wellens

"I am passionate about people, photography, stories, and Jesus. Capturing life's pure moments is a joy! It is an honor and pleasure to capture things as they are."

Maxine Wellens.

Creating a story by capturing a moment in time
