The story of Farhoud Al Shaqab and his value as a breeding stallion at Al Shaqab begins with his grand-dam, Sahaba (Adeeb x Hasanat), a 1984 straight Egyptian mare bred by the E.A.O. who was imported to Al Shaqab in 1992. Sahaba was an imposing mare exhibiting the dominant traits of her treasured pedigree; sound conformation, correct movement, strong pigment and large black eyes. Regrettably, Sahaba produced just three foals for Al Shaqab and only one of those foals, Johara Al Shaqab, was able to contribute to the Al Shaqab breeding program. Johara Al Shaqab was born in 1998 and is sired by Imperial Mahzeer (Imperial Madheen x Maar Bilah), a straight Egyptian stallion of superior quality, athleticism and a breeding

ability that, in his time, rivaled the very best stallions in the region. Johara Al Shaqab is an elegant, harmonious mare epitomizing the exotic type and refinement that has, over the centuries, brought so much appreciation to the horses of straight Egyptian lineage.

As a breeding mare Johara Al Shaqab and her family have proven to consistently reproduce her quality and ideal conformational characteristics, an invaluable ability that has enabled her to single-handedly found a dynasty and with the birth of her first born son, Farhoud Al Shaqab (by Al Adeed

Al Shaqab), the influence of Johara Al Shaqab now reaches far beyond the Al Shaqab breeding program.

Farhoud Al Shaqab was born in 2008 and was immediately identified as a potential successor to his accomplished sire, Al Adeed Al Shaqab (Ansata Halim Shah x Sundar Alisayyah).

Al Adeed Al Shaqab

As a show horse, Farhoud Al Shaqab was named the 2010 Egyptian Event Champion Colt and Supreme Male and has since established himself among the leading breeding stallions at Al Shaqab.

Of all the Al Shaqab stallions, Farhoud Al Shaqab is the most reliable for consistently siring his extreme head type. Farhoud will also contribute his conformation and look, a look that is significantly influenced by his dam, Johara Al Shaqab, and this is a look and conformation that has produced a collection of accomplished show horses at prestigious shows around the world.

To be considered a successor of Al Adeed Al Shaqab is no small feat.

Al Adeed Al Shaqab is of almost flawless conformation and his appearance flaunts the classic Arabian type that draws all of us to the breed. His quality and conformation, along with his ability to consistently reproduce these highly desirable

Farhoud Al Shaqab foal

traits has placed him among the most accomplished straight Egyptian stallions in the world and living today.

Al Adeed Al Shaqab has produced an enviable list of international champions since his first foal crop was born in 1998 and the crossed with Johara Al Shaqab and her daughters has been particularly noteworthy.

Ultimately, a breeding program is judged by history and specifically the horses' ability to reproduce their idealistic conformation and characteristics with consistency. At Al Shaqab show ring results have no bearing upon any breeding decisions. Many factors contribute to accomplishing or not accomplishing a championship and these factors are of little consequence when making breeding decisions with the intention to preserve and or improve upon the quality and conformation of the two horses being mated.

Having already proven to carry the true hallmark of the Al Shaqab breeding program, Farhoud Al Shaqab has clearly demonstrated his worthiness for a place in Al Shaqab's history.
